

TRANSCRIPT PREPARED BY THE CLERK OF THE LEGISLATURE
Transcriber's Office

April 23, 1999 LB 57, 704

any county in the state. During this transition time, and you'll recall that the language provides that we must get to that point where we can get it in any county no later than January 1 of 2003, but during this transition time, this language provides that when...when the necessary procedures are in place any time between now and 2003 and when the DMV has a system that they are designing up and running, then they will be able to begin receiving...you'll be able to begin receiving your license in any county. If that happens before 2003, then that will be possible before 2003 but this language, as we were requested by DMV, needed to be smoothed out to clarify this transition period. It does provide that those applying for a Class M motorcycle license will have a computer check of their records maintained by the DMV so that...so that when they go in and apply they can...that can be easily checked. And that is the case with Class O licenses and commercial licenses now, and this just extends that computer check of the record to Class M licenses. In two places, the language, you'll recall we clarified the language that the examiners for commercial driver's license didn't have to have a commercial driver's license themselves and so that they can be an examiner without actually holding a CDL themselves. That language needed to be inserted in a couple more places and this amendment does that. Actually, it corrects a couple of clerical errors that inadvertently occurred in the E & R amendment. In the E & R amendment to LB 57, which is a different bill, which already has been signed by the Governor, we were asked to correct a couple of simply clerical errors in LB 57. So I can't...I can't...I don't think there is anything else that I can tell you. It is...it is not a substantive amendment but it is a necessary amendment to make the entire provisions of 704 work. And with that, Mr. Lieutenant Governor, I will stand to answer any questions, if there should be any. Thank you.

PRESIDENT MAURSTAD: Thank you, Senator Bromm. (Visitors introduced.) Senator Bromm, even without...even with that delay, there are no lights on. Senator Bromm waives closing. The question is the adoption of AM1292 to LB 704. Those in favor vote aye, those opposed nay. Have you all voted? Members, we're voting on LB or AM1292 to LB 704. Please record.

ASSISTANT CLERK: 25 ayes, 1 nay on the adoption of Senator
